 APPLICATION PHASE: GEC Call for Solutions Textile with a special focus on innovative materials

Do you want to create tremendous impact and scale your startup to a world-changing company?

The Global Entrepreneurship Centre is looking for sustainability changemakers! They support transformative companies that focus on sustainable technologies (sustech) for achieving circularity, the global climate targets of the Paris Accord and the Sustainable Development Goals of the United Nations.

You should find solutions to the most pressing needs in the textile sector

- ✗ The need for more sustainable materials
- ✗ Hazardous and polluting wet processes
- ✗ Huge amounts of textile waste

In the current Call for Solutions the GEC is seeking technology startups addressing the most pressing sustainability challenges of the textile sector **with a special focus on material innovation**

- ✓ Biobased & next-generation materials
- ✓ Process innovation for existing materials
- ✓ Non-hazardous wet processes
- ✓ Technologies enabling a circular value chain

Your benefits in a nutshell

- 👉 Receive up to € 200,000 to power your scale-up journey (grant and convertible loan investment as in-kind services)
- 👉 Sharpen your sustainability story to build a true responsible business
- 👉 Join a lifelong, collaborative community of likeminded startup founders & innovators
- 👉 Connect with industry partners, investors, scientists, and experts globally
- 👉 Get access to lab facilities, co-working spaces, and the event space in Meerbusch/ Düsseldorf

Take your chance and apply from 24 April to 14 May 2023 under: <https://www.gec-scaleup.com/gec-call-for-solutions-textiles/>
