

# Examination rules summer term 2020 (Corona)

- Students with symptoms such as Fevers are not allowed to take part in the exams.
- When entering the HS building, you are required to wear an MNS. This applies until you are seated AND the supervisors have handed out the exams and checked the attendance. You can then remove the mask during the exam.
- First of all please fill out the exam header and the "registration sheet according to the Corona Protection Ordinance", which is collected when the supervisor is checking your attendance.
- Hands must be disinfected before entering the exam room (dispensers are available at the entrances)
- Should you have to go to the toilet during the exam, ALL students sitting in your area must put the MNS on. We therefore ask you to use the toilet BEFORE or AFTER the exam if possible, as this can lead to significant disruptions during the exam.
- As the outside doors of the HS building are still closed, it is essential to arrive on time. If you arrive late, you will not be able to enter anymore! Plan enough time that you can check your room number at the D building and then go to the lecture room.
  - Entrance:
    - ZE34-36: Courtyard side door to the right of the main entrance
    - Audimax/Streifenmax: also inner courtyard of the Z / W building
    - S-rooms: Entrance Webschulstraße
- Seats will be assigned to you.
- It is not possible to leave the room earlier. All students have to stay in their place until the end of the exam.
- After completing the exam, please stop writing immediately and place the exam upside down 1m next to you on the table. If you continue to write despite being asked to stop, this will be assessed as an attempt at deception (consequences see below).
- You will be asked to bring the exam row by row to the front and leave the room in an orderly manner.
- Please also avoid gatherings outside of the building and keep the minimum distance to the other students.
- The division in which room you are writing can be found on the windows of BUILDING D so that you can check it without entering the building.
- **Attempted deception:**
  - If you try to cheat, the free attempt for this exam will automatically expire and your exam will be given a score of 5.0
  - If you try to cheat in the 3rd attempt, you will definitely not be able to take an oral supplementary examination, which means that your course of studies will be terminated without a degree by de-registration!
