About us

bAwear is a team of committed and passionate textile industry professionals and experts who believe in fact-based, objective transparency. Together with our partners, stakeholders and clients, we work collectively through data-driven insights towards a healthy and sustainable industry.

Role overview

Join our dynamic and growing team as a Textile Sustainability Developer, where you'll leverage your expertise in textile materials and processes to support our clients and partners in making data driven decisions on sustainable practices. In this role, you'll be responsible for integrating accurate, industry-relevant data into our Life Cycle Assessment (LCA) tools, offering strategic advice on sustainable practices, and making streamlined LCA calculations.

Note: This role is only available to individuals who hold a valid working permit for the EU.

Preferred	Experience with LCA software (for example, SimaPro)
Key responsibilities	<ul style="list-style-type: none"> ● Textile analysis: Provide insights on textile materials, production processes, and their environmental impacts. ● Technical development: Technical improvement of bAwear tools ● Data Integration: Ensure accurate textile data for LCA calculations and expand the library of product scenarios. ● Sustainability consulting: Advise clients on eco-friendly practices and materials. ● Research: Keep up with industry trends and advancements in textile sustainability. ● Client interaction and support: Translate complex data into sustainability strategies/insights.
Qualifications	<ul style="list-style-type: none"> ● Education: Bachelor's/Master's degree with a textile-related background ● Experience: 2+ years in the textile industry, focusing on supply chain sustainability. ● Skills: Expertise in textile materials and processes, strong analytical and communication abilities. All communication will be in English, Dutch is a plus. ● Passion: A genuine drive and commitment to environmental sustainability and making a positive impact.

Why join us?

- **Impactful work:** Help and join us to drive real change in textile sustainability!
- **Continuous learning:** You will be learning every and developing your knowledge
- **Supportive culture:** Be part of a forward-thinking and supportive collective.
- **Growth opportunities:** Significant potential for professional and personal development!
- **Flexible work:** Enjoy the benefits of hybrid work and our approach to responsibility.
