# INTERNSHIPS PRODUCT OPERATIONS

(M/F/D)

## JOIN ONE OF OUR PRODUCT OPERATIONS TEAMS:

- **Apparel Pattern Making:** As part of Product Operations, we bridge the gap between design vision and production reality. Our team works closely with development, design, marketing, graphic and material teams to create a diverse range of garments.
- **Product Development:** We'll never launch a product unless we consider it perfect. Our product development teams create every shirt, every shoe and every piece of equipment for thousands of athletes and fashion lovers as if it was one of a kind.
- **Product Testing & Quality:** We plan and conduct perception, biomechanical and laboratory tests for our footwear and apparel products across football and motorsports. Therefore, we are working closely with our athletes, other departments and external partners (e.g. Universities, individual testers, clubs) to generate product feedback and evaluate the status quo of future products.
