The thesis can only be uploaded once you have confirmed it and decided whether to approve it or not, **and** once the processing period notified to you by the Examinations Office has begun. You may upload up to 2 files with a maximum size of 250 MB each.

Please note that you can only upload and delete files until you have clicked the submit button. Subsequent modification or exchange of the documents is no longer possible after this. Therefore, make sure that you have selected all files correctly and completely before clicking the submit button. **If you have uploaded your thesis in draft form but have not submitted it by clicking the submit button, the uploaded version will be assessed after the submission deadline.**

Please also note that uploading your thesis is only possible until the end of the deadline.

Immediately after uploading your thesis, fill out section 6. of the form Application for Admission and Assessment of the Bachelor's/Master's Thesis and the Colloquium, which you received by e-mail from the Examinations Office, and send it to the Examinations Office responsible for your department, also by e-mail.

Approval/Non-Approval of the Thesis

I am aware that my thesis may not be viewed within or outside the university or made accessible in any other way without my permission. Only the persons involved in the examination procedure are authorised to access it. The submitted thesis will be automatically deleted after five years, regardless of whether I have given my permission. This period begins after graduation.

If I agree to the inspection of my thesis by third parties, this may take place in the following ways:

a) within the university (the thesis may be made accessible to members and affiliates of the Niederrhein University of Applied Sciences for teaching or study purposes).

b) within and outside the university (the thesis may also be made accessible to persons outside the Niederrhein University of Applied Sciences).

I am aware that I can revoke the release of my thesis for the future at any time.

Here you decide whether and, if so, to what extent the thesis will be released. Approval can take place in two stages:

- a) within the university
- b) within the university and outside the university

The department (supervising person) "administers" the thesis in these cases and ensures that the thesis is deleted at the end of the retention periods (5 years after graduation).

The examiners are informed of the approval/non-approval of the thesis by e-mail.
