

Bachelor's or Master's Thesis Opportunity

Looking for a Thesis with Real Startup Impact?

Bachelor / Master Thesis – DE / EN

We are a young startup working on innovative material solutions and are looking for motivated students to join our team for a Bachelor's or Master's thesis.

Topic:

Optimization of plasma-based surface treatments for functional textile materials

What you'll do:

- Hands-on work with innovative plasma-based surface treatments
- Support experimental studies on functional textile materials
- Help optimize processing and storage conditions for advanced coatings
- Bring in your own ideas and help shape the project

What you bring:

- Study in materials science, chemistry, textile engineering, or related fields
- Interest in experimental work and surface technologies
- German and English skills
- Curiosity, motivation, and an innovative mindset

What we offer:

- A highly practical and innovative thesis topic
- Work in a dynamic startup environment
- Close supervision and short decision paths
