Korntex

06 Thank you

ABOUT KORNTEX

Korntex is one of the leading specialists in high-visibility workwear. We develop certified products in compliance with European PPE safety standards, while also combining safety and fashion to create unique and competitive products that our customers are proud to wear.

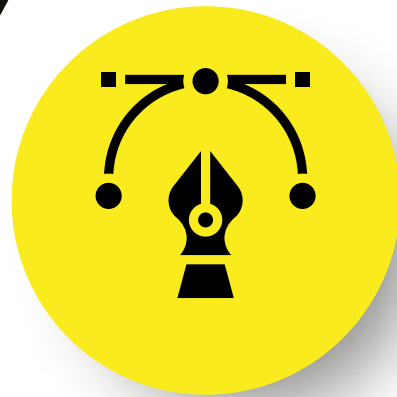

**Carl-Zeiss-Straße 5,
70736 Fellbach, Germany**

STARTING NOW

ROLE PURPOSE

Bridge creative design & technical execution

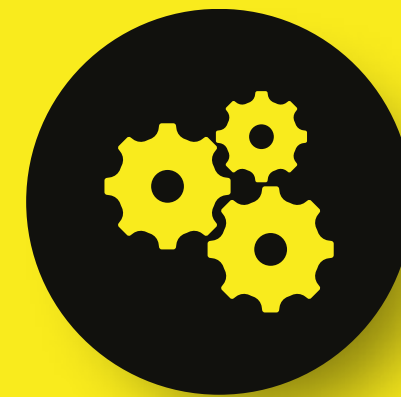

Design → Tech

Translate creative concepts into production-ready specs and technical drawings.

Safety Standards

Ensure all garments comply with EN ISO 20471 and EN 17353 certification requirements.

3D Technology

Optimize sampling with VStitcher to reduce physical loops and visualize fit digitally.

KEY RESPONSIBILITIES

A 360° view of the PPE development cycle

01

Certification

Creation of product Tech-Packs for certification purposes

02

Quality Management

Sample Evaluation · Fit & Workmanship · 3D vs Physical Comparison · Correction Loop

03

Pattern & 3D Prototyping

VStitcher (Browzwear) · Digital Twins · Reflective Placement · Virtual Prototypes

04

Supply Chain

International Supplier Communication · Material Sourcing · Pricing Calculations

- German

Structured · Detail-Oriented · Curious about Functional Clothing & Technical Textiles

WHAT WE OFFER

Your benefits at Korntex

Real-World Impact

Your 3D models and Tech-Packs result in actual certified products sold across Europe.

Expert Mentorship

Guidance from experienced product managers and certified garment technicians.

DPC & 3D Master

Advanced VStitcher skills for technical fit analysis and virtual material testing.

PPE Specialization

Deep knowledge of EN ISO 20471 & EN 17353 — a rare and valued expertise.

Full Product Lifecycle

From design sketch to 3D simulation, physical sampling, and final certification.

Day-to-Day Perk

Compensation, great coffee, and a welcoming team in Fellbach near Stuttgart.

Thank you for your attention!
